1. The following is an examiner's statement of reasons for allowance: the primary reason for allowance is that although Preston, GB 2,293,583 teaches a woven structure comprising thermoplastic fibers and metallic fibers and newly cited US Patent No. 2,962,057 teaches providing a resin coating to protect metal fibers in a cloth, no motivation is found to provide a resin coating on the thermoplastic fibers themselves. Applicant's amendment reciting that the textile has an "open weave" in combination with the previously present limitations that the synthetic cables and metal cables are sheathed with a polymer material overcome the Malpas reference.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
